Note sure how to get the content to load with noscript tags.

1. Load the content via an iframe: would require getting the iframe to fill the screen
2. Forward users to the noscript page via meta-refresh header: https://en.wikipedia.org/wiki/Meta_refresh#To_redirect_noscript_browsers

#2 - 05/08/2023 03:23 AM - Luke Murphey

- Status changed from New to Rejected
