Category:			**Estimated time:**	0.00 hour
Target version:	1.0.1			

Description

Steps to repro:

1. Create an input with a manual sourcetype
2. After the input runs, set the sourcetype to automatic; note that the sourcetype stays as the previous value
3. After the input runs again, set the sourcetype to an item from the list; note that the sourcetype stays as the previous value
4. After the input runs again, set the sourcetype to another manual value; note that the sourcetype does change

The sourcetype is still being provided by the modular input edit page (the value of the sourcetype box is persisted). However, the UI also provides the value "spl-ctrl_sourcetypeSelect" as "auto".

#4 - 06/22/2015 07:57 PM - Luke Murphey

Setting the sourcetype to empty resets it to the default.

All RSS logs can be searched with source="syndication://*"

#6 - 06/22/2015 08:37 PM - Luke Murphey

The selection "From list" doesn't work either.
