Target version:	Plus_1		

Description

Make a search command that can be used to migrate a lookup from the current search head to another. See https://github.com/doksu/splunk_kvstore_tools/blob/master/kvstore_migration.py.

History

#1 - 05/25/2017 05:11 PM - Luke Murphey

This could be done as a pair of search command depending on the direction of the transfer.

```
| kvstoreimport my_kv_store 1.2.3.4 user=admin password=changeme create=true
| kvstoreexport my_kv_store 1.2.3.4 user=admin password=changeme
```

Could also make a UI for transferring lookups.
