Improved Perseus Greek and Romans Texts - Feature #2399

Option to change the color scheme from dark to bright background?

05/10/2019 06:54 AM - Jiang Qian

Target version:			

Description

It would be great if the color scheme of the website could have a toggle (like the "night scheme" vs. "normal scheme" on arstechnica or reddit website). As of now, the dark background makes it impossible to see the text on certain ebook devices (See attached file).
