Description			

History

#1 - 09/13/2015 05:55 AM - Luke Murphey

Drag and dropping is not going well.

```
var dropZone = document.getElementById('lookups_editor')
dropZone.addEventListener('drop', function(evt){console.log("got it");}, false);
```

#2 - 09/13/2015 05:58 AM - Luke Murphey

It appears that I cannot hook the drop handler.

#3 - 09/13/2015 05:58 AM - Luke Murphey

<http://www.html5rocks.com/en/tutorials/file/dndfiles/>

#4 - 09/13/2015 06:00 AM - Luke Murphey

It appears ondrop is available:

```
var div = document.createElement('div');
div.ondrop // exists
```

#5 - 09/13/2015 06:02 AM - Luke Murphey

This doesn't work either:

```
var dropzone = document.getElementById('drop-zone'); // exists
dropzone.drop = function(){ console.log("Droppin da filez"); }
```

#6 - 09/13/2015 06:04 AM - Luke Murphey

Might need to be in contentEditable mode (<http://help.dottoro.com/ljbfwps.php>)

#7 - 09/13/2015 06:05 AM - Luke Murphey

<http://stackoverflow.com/questions/32084053/why-is-ondrop-not-working>

#8 - 09/13/2015 06:08 AM - Luke Murphey

Working example: <http://plnkr.co/edit/2mW3NR0QBuPI59sDEDRo?p=preview>

#9 - 09/13/2015 06:13 AM - Luke Murphey

This works?!

```
var holder = document.getElementById('drop-zone');
console.dir(holder)

holder.ondragenter = function (e) { e.preventDefault(); this.className = 'nicenice lvl-over'; return false
};
holder.ondragleave = function () { this.className = 'nicenice'; return false; };
holder.ondragover = function (e) { e.preventDefault() }
holder.ondrop = function (e) {
  e.preventDefault();
  console.log("GOT DROP EVENT");
  alert("dropped here");
  return false;
};
```

#10 - 09/14/2015 02:58 AM - Luke Murphey

on drop is working but isn't including the file object.

#11 - 09/14/2015 04:17 AM - Luke Murphey

This works:

```
var holder = document.getElementById('drop-zone');
console.dir(holder)

holder.ondragenter = function (e) { e.preventDefault(); return false; };
holder.ondragleave = function () { return false; };
holder.ondragover = function (e) { e.preventDefault(); e.dataTransfer.dropEffect = 'copy'; }
holder.ondrop = function (e) {
  e.preventDefault();
  console.log("GOT DROP EVENT");
  alert(e.dataTransfer.files.length);
  return false;
};
```

For some reason wiring up the drag handlers using Backbone and jQuery never works:

```
var ondrop = function (e) {  
    e.preventDefault();  
    this.onDropFile(e);  
    return false;  
}.bind(this);
```

```
var ondragover = function (e) {  
    e.preventDefault();  
    e.dataTransfer.dropEffect = 'copy';  
}.bind(this);
```

```
$("#lookup-table")  
    .on("dragover", ondragover)  
    .on("drop", ondrop);
```

I get an error indicating that:

```
Uncaught TypeError: Cannot set property 'dropEffect' of undefined  
Uncaught TypeError: Cannot read property 'files' of undefined
```
