RADIUS Authentication - Bug #1098

Server and port combination is not supported correctly

10/28/2015 09:03 PM - Luke Murphey

Status:	New	**Start date:**	10/28/2015

Target version:			

Description

fixes the handling of custom port numbers (server:port) for radius servers, as the released version tries to use default port with a hostname of 'server:port' when specifying a custom port number. caveat: this patch will break hostnames of IPv6 addresses.
