#### History

##### #1 - 12/10/2015 07:54 PM - Luke Murphey

Monitoring logs using:

```
index=_internal sourcetype="syndication_modular_input"
```

##### #2 - 12/10/2015 08:19 PM - Luke Murphey

The latest\_date is based on the latest entry.

##### #3 - 12/10/2015 10:14 PM - Luke Murphey

<https://answers.splunk.com/feed/questions.rss>

##### #4 - 12/10/2015 10:19 PM - Luke Murphey

**Observations:** \*

##### #5 - 12/10/2015 10:22 PM - Luke Murphey

Here is the search I have for listing the internal operation of the code:

```
index=_internal sourcetype="syndication_modular_input" | rex field=_raw "(?<action>((Skipping)|(Including)))"
| table date latest_date title action count
```

##### #7 - 02/07/2016 12:00 AM - Luke Murphey

Some observations:

- I see the input indicating that items are included, but I don't see them

##### #8 - 02/07/2016 12:01 AM - Luke Murphey

I'm seeing the following error:

```
Received event for unconfigured/disabled/deleted index=training with source="source::syndication://Splunk Answers" host="host::answers.splunk.com" sourcetype="sourcetype::SplunkTraining-Answers". So far received events from 1 missing index(es).
```

**#9 - 02/07/2016 12:24 AM - Luke Murphey**

Fixed the index issue.

Now monitoring for changes via:

```
index=_internal sourcetype="syndication_modular_input" | rex field=_raw "(?<action>((Skipping)|(Including)))"
| search count>0 OR action=Including | table date latest_date title action count
```

**#10 - 02/07/2016 03:24 AM - Luke Murphey**

Table format of events:

```
sourcetype="syndication" | eval time=strftime(_time, "%a, %d %b %Y %T %z") | table time title author link
```

**#11 - 02/07/2016 03:30 AM - Luke Murphey**

- Status changed from New to In Progress

**#12 - 02/19/2016 12:04 AM - Luke Murphey**

Wondering if this is an issue where the connection fails and this isn't communicated well.

**#13 - 02/23/2016 07:54 PM - Luke Murphey**

- Status changed from In Progress to Closed
