

Lookup Editor - Bug #1195

Creating two KV store lookups with the same name causes data corruption

02/05/2016 04:05 AM - Luke Murphey

Status:	New	Start date:	02/05/2016
Priority:	Normal	Due date:	
Assignee:	Luke Murphey	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:	Plus_2		
Description Steps to reproduce: 1) Create a KV store lookup with user A 2) Create another KV store lookup with the same name but in a different app and using another user account 3) Note that the lookup contains the values of both lookups

You don't even have to use a different user, just making the same named KV store in different apps triggers the problem.

#2 - 02/05/2016 04:12 AM - Luke Murphey

I think this is a Core bug. The endpoint ought to either:

1. Treat them as separate lookups entirely

2. Generate a 409 error when the second lookup is created
