

Website Monitoring - Bug #1461

App indicates that no inputs exist on SHC environments (even when they do)

I'm not sure that this is limited to SHC. I suspect it happens on instances where the inputs are all on indexers.

#2 - 09/22/2016 04:18 PM - Luke Murphey

I think the answer is to change the search such that it alerts only if the following are true:

1. There no inputs defined
2. There is no web_input data for the past 48 hours
