

ThreatFactor NSIA - Feature #149

Reduce Memory Usage by Disabling Memory Preallocation in HttpResponseMessage

05/10/2010 11:57 PM - Luke Murphey

Status:	New	Start date:	05/10/2010
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Scan Engine	Estimated time:	0.00 hour
Target version:			
Description			
The HttpResponseMessage uses extra memory unnecessarily by pre-allocating an array up to the upper limit of the response size. Below is the offending line in the constructor:			
<pre>byte[] responseBodyBytes = new byte[DEFAULT_LENGTH_LIMIT];</pre>
