

## ThreatFactor NSIA - Bug #164

### Logging to Localhost Enabled by Default

07/05/2010 08:49 PM - Luke Murphey

<b>Status:</b> Closed	<b>Start date:</b> 07/05/2010
<b>Priority:</b> High	<b>Due date:</b>
<b>Assignee:</b> Luke Murphey	<b>% Done:</b> 100%
<b>Category:</b>	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Description</b> By default, NSIA appears to try to send logs to localhost. External logging should be disabled by default.	

#### History

##### #1 - 07/05/2010 11:11 PM - Luke Murphey

- Status changed from *In Progress* to *Closed*
- Target version deleted (*1.0 (Release)*)
- % Done changed from 0 to 100

This issue appeared once but could not be reproduced. The code does default to disabled so it should not be a problem with default installs.

Most likely, this was a result of the upgrade using an existing database (previously that system was forwarding the logs to itself).
