Assignee:		% Done:	75%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Subtasks:			
Task # 1667: radius_auth CI support (needs radius server, 5.0-6.5)			New
Task # 1668: file_info CI support (6.0-6.5)			Closed
Task # 1669: lookup_editor CI Support (6.1-6.5)			Closed
Task # 1670: google_drive CI Support (needs tests change to "unit", needs service accou...			New
Task # 1671: web_input CI Support (6.2-6.5)			Closed
Task # 1672: syndication_input CI Support (6.2-6.5)			Closed
Task # 1673: ftp_receiver CI Support (6.2-6.5)			Closed
Task # 1674: website_monitoring (needs proxy, 6.3-6.5)			Closed

History

#1 - 12/23/2016 07:07 AM - Luke Murphey

Getting errors due to web-server not running.

Observations:

- The failures seem to happen intermittently. The 6.3-6.5 test gets the web-server after the first try.

Questions:

- Are tests running concurrently?
 - 6.2: 06:56:51.254 to 06:57:31.553
 - 6.3: 06:57:41.617 to 06:59:01.520
 - 6.4: 06:59:11.555 to 07:00:33.761
 - 6.5: 07:00:43.790 to 07:02:02.924
 - Nope, they are running serially

Things to try:

- Auto-identifying an open port
- Outputting the exception when a the web-server cannot be started

#2 - 12/23/2016 08:22 AM - Luke Murphey

Issue was that the tests needed to wait longer when checking to see if the server was running
