Description

It looks like the search isn't seeing the tags. It is using the default eventtypes instead.

```
litsearch ( sourcetype=web_ping NOT ( ( ( FILL_THIS_SEARCH_IN ) ) ) ( response_code>=500 OR timed_out=True OR total_time>10000 ) ) | litsearch ( sourcetype="web_ping" NOT ( ( ( FILL_THIS_SEARCH_IN ) ) ) ( response_code>=500 OR timed_out=True OR total_time>10000 ) ) | fillnull response_code value="Connection failed" | eval response_code=if(timed_out == "True", "Connection timed out", response_code) | addinfo type=count label=prereport_events | fields keepcolorder=t "prestats_reserved*" "psrsvd*" "response_code" "title" "total_time" "url" | prestats count max(total_time) by response_code title url
```
