<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	Plus_1		
<b>Description</b>			
Make a search command that can be used to migrate a lookup from the current search head to another. See <a href="https://github.com/doksu/splunk_kvstore_tools/blob/master/kvstore_migration.py">https://github.com/doksu/splunk_kvstore_tools/blob/master/kvstore_migration.py</a> .			

#### History

##### #1 - 05/25/2017 05:11 PM - Luke Murphey

This could be done as a pair of search command depending on the direction of the transfer.

```
| kvstoreimport my_kv_store 1.2.3.4 user=admin password=changeme create=true  
| kvstoreexport my_kv_store 1.2.3.4 user=admin password=changeme
```

Could also make a UI for transferring lookups.
