

Lookup Editor - Bug #2035

Spaces permitted in filename and causes errors. Two or more spaces causes a 404.

Description			
<p>While users probably should never use spaces (_ and - are more enjoyable), Core Splunk does not permit spaces in filenames. The lookup editor DOES allow spaces. While we are working to train users, our huge user-base and sometimes a high turnover causes ongoing issues with Files Not Found, etc. Splunk 6.6.2 required lookups with spaces to not only be quoted but must usually pipe into NOOP and disable auto optimization. Otherwise, Lookups are not found in search, either. Spaces in filenames also adds additional challenges when working from CLI.</p>			

History

#1 - 08/29/2017 08:14 PM - Luke Murphey

- Target version set to 2.7.1

#2 - 08/29/2017 08:16 PM - Luke Murphey

Good catch. This is to be fixed in the next release.

#3 - 09/04/2017 04:26 AM - Luke Murphey

- Status changed from New to Closed

#4 - 09/04/2017 04:52 AM - Luke Murphey
