Still need to some things

Functional

1. ~~Handle the overlay~~
2. ~~Update the URL~~
3. ~~Pop state on reversal~~
4. ~~Load parameters from the URL~~
5. ~~Wire up next/previous buttons~~
6. ~~Run search automatically in defined cases~~
7. ~~Render charts~~ (might want to convert to a mixin)
8. ~~Wire up checkboxes~~
9. ~~Show error on search failures~~

Design questions

1. Work in the styles
2. Design new tests
