Need to:

- ~~Not render the works list on the home page and works index~~
- ~~Close dialog when clicking out of it~~
- Render images on demand only
- ~~Fix links~~

- ~~Fix pagination~~
- ~~Show loading~~
- Get this to work on mobile

#2 - 09/13/2017 04:45 AM - Luke Murphey

This isn't working due to some issue in datatables. The error is

- Pressing next causes "Uncaught TypeError: Cannot read property 'nTr' of undefined"
- Pressing the paginator shows many entries
- The page doesn't change sometimes
- The full-page lister works
