Fixing issue where the lister wouldn't open the lookup in search from the editor.

Reference #2082

Revision 401 - 10/27/2017 08:38 PM - lukemurphey

Fixing two issues

1) view wouldn't open on show() if it wasn't rendered already
2) the "Open in Search" link would try to make a transform even though it already exists

Reference #2082

History

#1 - 10/26/2017 03:36 AM - Luke Murphey

Requirements:

1. **[Done]** Show create transform view is shown if no transform exists
2. **[Done]** Allow the form to open more than once without error
3. **[Done]** Once a transform is created, open the lookup in search
4. **[Done]** If an error is observed, then notify the user
5. **[Done]** The search will open with the transform going forward without a refresh
6. Handle elegantly the case:
    1. **[Done]** Where the transform name already exists
    2. **[Done]** Where the transform is invalid (empty)
    3. **[Done]** Where there is no field list defined (cannot make the transform without it)
    4. **[Done]** Where the user lacks permission to make the transform

#2 - 10/27/2017 08:48 PM - Luke Murphey
