Lookup Editor - Feature #2092

Create transform for lookup that doesn't have one

10/15/2017 04:33 AM - Luke Murphey

Status:	Closed		**Start date:**	10/14/2017
Priority:	Normal		**Due date:**	
Assignee:	Luke Murphey		**% Done:**	100%
Category:			**Estimated time:**	0.00 hour
Target version:	3.0			

Description
I could include the link to open in search for all lookups and then open the dialog for create the transform if the lookup doesn't have a transform.

History

#1 - 10/21/2017 06:23 PM - Luke Murphey

I might have to delete the transform when the lookup is deleted.

#2 - 10/22/2017 05:58 AM - Luke Murphey

Requirements:

1. **[Done]** Show create transform view is shown if no transform exists
2. **[Done]** Don't allow save if validation fails
3. **[Done]** Clear validation if the user fixes the issue
4. **[Done]** Allow the form to open more than once without error
5. **[Done]** Once a transform is created, open the lookup in search
6. **[Done]** If an error is observed, then notify the user
7. **[Done]** The UI will refresh once the transform is created
8. Handle elegantly the case:
    1. **[Done]** Where the transform name already exists
    2. **[Done]** Where the transform is invalid (empty)
    3. **[Done]** Where there is no field list defined (cannot make the transform without it)
    4. **[Done]** Where the user lacks permission to make the transform

Optional:

1. Suggest a transform name

#3 - 10/22/2017 06:01 AM - Luke Murphey

- % Done changed from 0 to 40

Open questions:

- Should the transform be updated when the lookup is updated?

#4 - 10/22/2017 06:06 AM - Luke Murphey

Need to fix the input focus issue too.
