History

#1 - 10/29/2017 06:55 PM - Luke Murphey

Need to:

- Make views use this.\$el

#2 - 10/29/2017 06:59 PM - Luke Murphey

Imports are not working correctly. It looks like exportation is incorrect though.

#3 - 10/29/2017 08:18 PM - Luke Murphey

- Refreshing doesn't currently work.
- Cell editing results in a new row on KV collections
- showWarningMessage is still in the table editor

#4 - 10/29/2017 08:19 PM - Luke Murphey

- % Done changed from 0 to 70

#5 - 10/29/2017 08:22 PM - Luke Murphey

This reduces the file from ~2800 lines to ~2000.

#6 - 10/30/2017 05:02 AM - Luke Murphey

Refreshing doesn't work.

Questions:

- Is this related to one of the options?
 - Removing all options: no change
- Does just calling render work?
 - No, same result

Observations:

- This appears to be due to re-rendering the entire component. Re-rendering only the lookup works.

#7 - 10/30/2017 08:32 PM - Luke Murphey

- Status changed from New to Closed

- % Done changed from 70 to 100
