Target version:	3.0		
Description Users use the Lookup Editor to Create and Edit. However, we are unable to find a way to delete in-app (Lookup Editor). As a work-around, we are pointing towards the "Lookup table files" options found under the Settings menu in core Splunk. This results in too many user steps to complete various removal/replacement of various lookup files within our organization.			
Subtasks:			
Task # 2163: Add delete confirmation dialog			Closed
Task # 2164: Wire up deletion of CSV lookups			Closed
Task # 2165: Wire up deletion of KV lookups			Closed
Task # 2166: Update list after lookup is deleted			Closed
