

ThreatFactor NSIA - Feature #222

Replace Right Management Tabs

10/19/2010 12:03 PM - Luke Murphey

Status:	Closed	Start date:	10/19/2010
Priority:	Low	Due date:	
Assignee:	Luke Murphey	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	1.0 (Release)		
Description			
Consider replacing the jQueryUI tabs with those from http://flowplayer.org/tools/tabs/index.html (since these are easier to theme).			

History

#1 - 10/23/2010 12:21 AM - Luke Murphey

- File *New_Tabs.png* added

- File *Old_Tabs.png* added

Updated to use flowplayer tabs.

New design:

The screenshot displays the ThreatFactor 1.0 web application interface. At the top, the header reads "ThreatFactor 1.0" and "Network System Integrity Analysis". The user is logged in as "Luke" with links for "Logout" and "Change Password". Below the header, there are two status indicators: "Current Status: No Deviations Noted" and "Manager Status: Operational". The main content area is titled "User Rights Management" and includes a navigation menu on the left with options like "List Users", "Add New User", "View Logged in Users", "Disable User", "Manage Rights", and "Update Password". The "User Rights Management" section has four tabs: "User Management", "Group Management", "Site-Group Management", and "System Administration". The "User Management" tab is active, showing a list of permissions with checkboxes, all of which are checked: "Create New Users", "Edit Users", "View Users", "Delete Users", "Unlock Accounts (due to repeated authentication attempts)", "Update Other's Password (applies only to the other users' accounts)", "Update Account Details (applies only to the users' own account)", "Delete Users' Sessions (kick users off)", and "View Users' Sessions (see who is logged in)". An "Apply" button is located at the bottom of the list.

Old design:

- Current Status: No Deviations Noted
- Manager Status: Operational

User Management

- ↻ List Users
- ↻ Add New User
- ↻ View Logged in Users
- ↻ Disable User
- ↻ Manage Rights
- ↻ Update Password
