Target version:	4.5.2		
Description			
The input doesn't seem to respect any sort of size limit.			
This may be hard to implement in mechanize. See http://wwwsearch.sourceforge.net/mechanize/doc.html			
See test TestWebInput.test_scrape_page_download_limit for proof.

Questions:

1. Can read() take a length argument?
 1. Yes, it can

```
import mechanize
opener = mechanize.OpenerFactory(mechanize.SeekableResponseOpener).build_opener()
response = opener.open("http://127.0.0.1:8080/bigfile")
response.read(100)
response.close()
```

Test via this:

```
ant test.run_unit -Dtest=TestWebInput.test_scrape_page_download_limit
```
