- Subject changed from Fields are listed in some cases to Fields are not listed in some cases

#2 - 05/17/2018 09:17 PM - Luke Murphey

The fields are not being returned by https://127.0.0.1:8089/servicesNS/nobody/linux-auditd/storage/collections/config/auditd_host_inventory

This is because the lookup editor assumes that the fields are listed in collections.conf. In this case, they are listed in the transforms.conf entry.
