Description			
Dear Mr. Murphy,			
I have found a few more authors who are in Perseus (at least in their current Hopper websites) but not on textcritical. Perhaps such bug reports are not so helpful. But I thought since I bumped into such bugs I might as well file it. I also thought, if the authors (including the earlier missing ones I filed bugs about) are in the raw xml files, perhaps it is the search mechanism used on textcritical website that somehow missed them?			
Anyway, among the Ten Attic Orators, three are missing, Antiphon, Isaeus and Isocrates. Julian the Apostate, the short-lived Roman emperor who made some amusing speeches, is also missing.			
Among historians , Cassius Dio, Herodian and Procopius are missing.			
Among philosophers, Philo of Alexandria and Sextus Empiricus' works are missing.			
Thank you again for making the rest of works available!			
Best Regards Jiang
