I can update the Perseus docs with this:

```
UPDATE reader_worksource
```

```
SET source = 'perseus.tufts.edu',
description='Text provided by Perseus Digital Library, with funding from The Annenberg CPB/Project. Original v
ersion available for viewing and download at http://www.perseus.tufts.edu/hopper/.'
WHERE id <> 699 AND id <> 700;
```

And the Biola ones with this:

```
UPDATE reader_worksource
SET source = 'unbound.biola.edu',
description='Text provided by The Unbound Bible from Biola University. Original version available for viewing
and download at http://www.unboundbible.org/.'
WHERE id = 699 AND id = 700;
```
