History

#1 - 06/05/2019 05:39 AM - Luke Murphey

- There are gaps in the chapters (Perseus has this too though)
- The chapter markers are weird
- There are multiple chapters 36s
- You can get a copy at <https://archive.org/details/diosromanhistory06cassuoft/page/n6>

#2 - 06/05/2019 05:45 AM - Luke Murphey

Things get confusing after 1.13 since the chapter number drops to 6

Questions:

- How does Perseus handle this?
<http://www.perseus.tufts.edu/hopper/text?doc=Perseus%3Atext%3A2008.01.0593%3Abook%3D1%3Achapter%3Dpos%3D10>
 - Perseus adds "pos=" to the division identifier
- Do other chapters do the same thing?
 - Yes
- Are there other records of this work that should how the work is supposed to be structured?

Observations:

- The work is known to be choppy: http://www.tertullian.org/rpearse/manuscripts/dio_cassius.htm
- The work is broken up like this. See code below.
