History

#1 - 06/10/2019 11:11 PM - Luke Murphey

I would want to render the description from the WorkSource.

#2 - 06/10/2019 11:54 PM - Luke Murphey

I could make a script to make the connections to the Perseus resources. I could also just make a script to do it.

#3 - 06/11/2019 12:18 AM - Luke Murphey

The following are the works from Perseus:

```
select * from reader_worksource where id <> 699 AND id <> 700;
```

I can update the Perseus docs with this:

```
UPDATE reader_worksource
SET source = 'perseus.tufts.edu',
description='Text provided by Perseus Digital Library, with funding from The Annenberg CPB/Project. Original version available for viewing and download at http://www.perseus.tufts.edu/hopper/.'
WHERE id <> 699 AND id <> 700;
```

And the Biola ones with this:

```
UPDATE reader_worksource
SET source = 'unbound.biola.edu',
description='Text provided by The Unbound Bible from Biola University. Original version available for viewing and download at http://www.unboundbible.org/.'
WHERE id = 699 AND id = 700;
```

#4 - 06/11/2019 02:05 AM - Luke Murphey

- Status changed from *New* to *In Progress*
- % Done changed from 0 to 90

#5 - 06/11/2019 07:16 PM - Luke Murphey

- Status changed from *In Progress* to *Closed*
- % Done changed from 90 to 100
