

Website Monitoring - Bug #2505

Bug # 2500 (Closed): Doesn't work on Splunk 8.0

Setup page doesn't work

11/11/2019 02:56 AM - Luke Murphey

Status:	Closed	Start date:	11/10/2019
Priority:	Normal	Due date:

Fixing URL for the config page

Reference #2505

History

#1 - 11/11/2019 06:50 AM - Luke Murphey

The problem is that I don't ship a default website_monitoring.conf stanza but I also don't support handleCreate.

#2 - 11/12/2019 12:39 AM - Luke Murphey

Questions:

- Does editing work?
 - It does
- What does restmap.conf say is the create action?
- Is there any difference between the edit and new requests?
 - On new: http://127.0.0.1:8000/en-US/splunkd/servicesNS/nobody/website_monitoring/admin/website_monitoring/default
 - On edit: http://127.0.0.1:8000/en-US/splunkd/_raw/servicesNS/nobody/website_monitoring/admin/website_monitoring/default
 - Data:

```
output_mode      json
name             default
proxy_server
proxy_port
proxy_type       http
proxy_ignore
proxy_user
proxy_password
thread_limit     201
```

**

Observations:

- My log entry is not showing any calls to handleCreate()
- Are there any related messages?

500 Internal Server Error The server encountered an unexpected condition which prevented it from fulfilling the request.
