

Lookup Editor - Bug #2617

404 when trying to create a new lookup

03/30/2020 03:55 PM - Gregory Gabriel

Status:	New	Start date:	03/30/2020
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
When creating a new CSV lookup in 3.3.0, user is redirected to 404 Pony Page			
URL: https://es-splunk/en-GB/static/@13e97039fb65.4/app/lookup_editor/js/templates/lookup_edit?action=new&type=csv			
Page not found! Click here to return to Splunk homepage.			
This is SpLunk 7.3.4 in a search head cluster. I tried this myself as an admin user, in a private browser sessions and after both bumping and restarting all searchheads			

History

#1 - 03/31/2020 08:59 AM - Gregory Gabriel

Correction - this concerns version 3.3.3

#2 - 04/03/2020 12:46 PM - Gregory Gabriel

This can be closed - in the end it was a rewrite rule in the reverse proxy mapping.
