Error is:

Support for the experimental syntax 'decorators-legacy' isn't currently enabled

Qs: *

Obs: *

Solns:

- Try adding to webpack config

```
['@babel/plugin-proposal-decorators', { legacy: true }],  
['@babel/plugin-proposal-class-properties', { loose: true }],
```

- Module name mapper
 - <https://github.com/facebook/jest/issues/3094>
 - That seems to have fixed it

#3 - 04/20/2020 05:32 AM - Luke Murphey

Now getting "ReferenceError: fetch is not defined"

Solns:

- Mock fetch: <https://stackoverflow.com/questions/36069731/how-to-unit-test-api-calls-with-mocked-fetch-in-react-native-with-jest> *
