## History

#### #1 - 05/04/2020 06:11 PM - Luke Murphey

Qs: \*

Obs:

• I would need to figure out how to deploy the SPA

## Solns:

- · Bundle directly into app
  - o This is easy but requires pushing an update to the backend every time I want frontend updates
- · Keep separate, use backend only for REST endpoints
  - o Could deploy frontend easily by just copying out the frontend code to the web-server
  - o Would need to map APIs in the web-server
  - o Backend would not need to be upgraded for a new UI
    - Perhaps I could get rid of the static directory population script for the SPA code

## #2 - 05/18/2020 05:30 PM - Luke Murphey

- Status changed from New to In Progress

# #3 - 05/19/2020 05:42 AM - Luke Murphey

- Status changed from In Progress to Closed
- % Done changed from 0 to 100
