<b>Description</b>			

### History

#### #1 - 05/08/2020 06:42 AM - Luke Murphey

Obs:

- This issue appears to have been present for a while (went back many changes and still seeing it)
- It goes away if I remove the menu
- It is caused by having the menu set as fixed
- This happens on the example even when I delete most of the content
- The scrollbar doesn't always appear on [https://www.w3schools.com/howto/tryit.asp?filename=tryhow\\_css\\_fixed\\_menu](https://www.w3schools.com/howto/tryit.asp?filename=tryhow_css_fixed_menu) when I remove the height and some content
- Removing the intermediate div seems to help
- Its some sort of collision with the pushable and menu

Qs:

- Is this linear to the menu height?
  - No
  - Seems to be the same as the pushable segment margin
  - Yay, getting rid of that margin fixes it

Solns:

- A clearing segment doesn't help
- `style={{ position: 'fixed', top: 0 }}` doesn't fix it
- The margin-top doesn't seem to be the problem

#### #2 - 05/08/2020 09:09 PM - Luke Murphey

- Status changed from New to Closed

- % Done changed from 0 to 100
