<b>Description</b>			

### History

#1 - 05/20/2020 10:07 PM - Luke Murphey

Qs:

- Does queryParams represent the current URL on forward/back?
  - It does
- Why doesn't the page re-render on forward/back?
  - I can call
- What are the the cases I have to handle?
  - Load results on page load
    - Will not load if no results are available
  - Load results on "go"
  - Load results on "next"
  - Load results on "back"
  - Load results on browser next
  - Load results on browser back
- How do I determine if the results are different?
  - The things that could be compared are:
    - state: this is being loaded from the URL and thus matches the URL
    - URL
    - history:
      - match: doesn't work since we are using query params
      - location: key seems to match history

Obs:

- The search doesn't run when the URL is provided
  - See [http://localhost:8081/search?q=work:new-testament%20%CE%BD%CE%BF%CE%BC%CE%BF%CF%82&page=2&ignore\\_diacritics=1&include\\_related=1](http://localhost:8081/search?q=work:new-testament%20%CE%BD%CE%BF%CE%BC%CE%BF%CF%82&page=2&ignore_diacritics=1&include_related=1) \*

**#2 - 05/20/2020 10:08 PM - Luke Murphey**

- Status changed from New to In Progress

**#3 - 05/20/2020 10:15 PM - Luke Murphey**

- Status changed from In Progress to Closed

- % Done changed from 0 to 100
