Obs:

- I like how some sites show the header when you click it too
- Hiding the header would show a gap at the top

Qs:

- What do I want?
  - Show header on scroll; hide a bit later
  - Toggle header on click

Solns:

  - Doesn't work for me
  - Handlers don't fire either

  - This looks a good solution
- ```
window.scrollTo({
  top: 0,
  behavior: 'smooth',
})
