https://www.javascripttutorial.net/javascript-dom/javascript-scrollintoview/

- Works but the verse get lost under

Obs:

- window.scrollBy(0, 100);
    - Doesn't work
- window.scrollTo(300, 500);
- The second scrollbar appears because the pushable has a vh of 100
- Removing the 100vh fixes it (but it uses the main scrollbar)

Solns:

- Click to hide header
    - The problem is that the book title is under the header
- Add a buffer
    - Can hide the scrollbar on the body with overflow: hidden
- Set the vh minus the buffer
    - https://css-tricks.com/a-couple-of-use-cases-for-calc/
    - This worked
