### History

#### #1 - 08/05/2020 07:15 PM - Luke Murphey

- Status changed from New to Closed
- % Done changed from 0 to 100

#### Obs:

- Adding more margin to the buffer does not help
- Appears that scroll is messed up on "ui container underMenu inverted"
  - Showing the scroll makes it clear that it just needs to be scrolled
- Can get a simpler repro: <http://localhost:8081/work/antiquities-of-the-jews/13/10/6?parallel=antiquitates-judaicae>
- This resolves when:
  - Remove margin-top from .ui.grid

#### Qs:

- Why does this only happen when two works are loaded?
- Could this be due to the length of the document and not the parallel arrangement?
