

RADIUS Authentication - Feature #386

Support authentication test using existing secret

07/27/2012 07:21 PM - Luke Murphey

Status:	Closed	Start date:	07/27/2012
Priority:	Normal	Due date:	
Assignee:	Luke Murphey	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:	1.1.1		
Description Users cannot test an account on the setup screen using the existing secret. This is because the AccountTestValidator currently does not try to get the existing secret from the REST endpoint.			

Associated revisions

Revision 57 - 08/28/2012 04:46 AM - Luke Murphey

Updated the REST handler such that it will use the existing secret if it was not provided for the purposes of validating the user account. This way, the setup screen can be used to validate an account without re-specifying the secret. Closes #386.

Revision 50 - 08/28/2012 04:46 AM - Luke Murphey

Updated the REST handler such that it will use the existing secret if it was not provided for the purposes of validating the user account. This way, the setup screen can be used to validate an account without re-specifying the secret. Closes #386.
