Description				

History

#1 - 04/08/2010 09:30 PM - Luke Murphey

ThreatScript definitions seem to execute even though they are disabled.

#2 - 10/26/2010 01:05 AM - Luke Murphey

- Status changed from New to Rejected

Disabling the definition just causes it to be ignored in the reports. Execution should still continue since they may set variables that are used by other definitions.
