<b>Target version:</b>			
<b>Description</b>			
Add a command-line script that allows users to test the configuration of the RADIUS server. This ought to:			
<ol style="list-style-type: none"><li>1. Indicate if the login succeeded</li><li>2. Output the attributes provided by the server</li><li>3. Indicate the user's assigned role (and where it got the role: from the RADIUS server, the lookup or the default roles)</li></ol>
