ThreatFactor NSIA - Support #82

HTTP Client MD5 Content Handling

04/09/2010 12:06 AM - Luke Murphey

Status:	Rejected		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Scan Engine		**Estimated time:**	0.00 hour
Target version:				

Description
The HTTP client needs to be investigated to determine how it handles MD5 headers whose content does not match the checksum.   The client may throw an IOException.

History

#1 - 11/02/2010 01:20 PM - Luke Murphey

- Category set to Scan Engine

#2 - 01/07/2011 08:11 AM - Luke Murphey

- Status changed from New to Rejected

- Start date deleted (04/09/2010)

Practically no one uses MD5 HTTP headers, this is not that relevant.
