

ThreatFactor NSIA - Bug #88

SQLExceptions are Thrown Out of The Finally Block

04/09/2010 12:11 AM - Luke Murphey

Status: Closed	Start date:
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category: Core Application	Estimated time: 0.00 hour
Target version:	
Description The code contains numerous cases where the finally block throws a SQLException when attempting to close the connection. This will cause the original exception to base masked and prevent good bug reporting. The code should be replaced with an exception handler that retains the original exception: <ul style="list-style-type: none">• http://www.javaworld.com/javaworld/javatips/jw-javatip91.html• http://accu.org/index.php/journals/236](http://accu.org/index.php/journals/236
