Website Monitoring - Feature #891

Ability to filter out data from the status summary that is not associated with an available input

11/13/2014 06:20 PM - Luke Murphey

Status:	Closed		**Start date:**	11/13/2014
Priority:	Normal		**Due date:**	
Assignee:	Luke Murphey		**% Done:**	100%
Category:			**Estimated time:**	0.00 hour
Target version:	1.1			

Description

See http://answers.splunk.com/answers/188627/website-monitoring-app-remove-website.html

---

History

#1 - 02/07/2015 04:57 AM - Luke Murphey

- Target version set to 1.1

#2 - 02/07/2015 04:58 AM - Luke Murphey

- Status changed from New to In Progress

This could likely be done with | rest and a join.

Something like:

```
sourcetype="web_ping" | join source [| rest /services/data/inputs/web_ping | search disabled=0 | fields title
id | rex field=id ".*[/](?<name>[^/]*)" | eval name=urldecode(name) | eval source="web_ping://".urldecode(name
)]
```

#3 - 02/07/2015 08:02 AM - Luke Murphey

- Status changed from In Progress to Closed

- % Done changed from 0 to 100

#4 - 02/11/2015 06:01 PM - Luke Murphey

This doesn't work on 6.0 because the checkbox input isn't available:

```
