Description

See https://github.com/automategreen/home-controller/blob/master/lib/Insteon/Thermostat.js

History

#1 - 11/20/2014 08:24 PM - Luke Murphey

Command 6f appears to provide the humidity level:

    sourcetype=insteon_plm "from=2c.47" "cmd1=6f" | eval humidity = tonumber(cmd2, 16)

#2 - 11/21/2014 06:18 AM - Luke Murphey

- % Done changed from 0 to 50

#3 - 11/21/2014 06:19 AM - Luke Murphey

- Status changed from New to In Progress

Need to figure out how to get temperature values into the UI.

#4 - 11/23/2014 01:21 AM - Luke Murphey

- Status changed from In Progress to Closed

- % Done changed from 50 to 100

The thermostat doesn't seem to send the temperature on a regular basis like I hoped. Giving up on that for now.
