I think the problem is that the document is no longer valid.

The exception is getting thrown here at the progress call:

```
// Set the progress
if( this.slideshow_progress_bar_created && this.isSlideshowWindowDefined() ){
    NProgress.set( this.getSecondsInView() / this.slideshow_delay );
}
```

The exception is being thrown from jQuery.acceptData. It looks like this issue: http://bugs.jquery.com/ticket/4280
